

**WHAT IS CLAIMED IS:**

1. A three dimensional cake sculpture product, which comprises:

a.) an edible baked base having a bottom, substantially vertical walls, and a non-vertical top;

b.) an edible three dimensional sculpture presenting a distinguishable scene, said sculpture being of two portions, being a first portion and a second portion, said first portion being three dimensional and being located on said non-vertical top of said base, and said second portion being two dimensional and being located on said substantially vertical walls.

2. The three dimensional cake sculpture product of claim 1 wherein said second portion includes at least one edible substrate and at least one edible printed segment of said distinguishable scene on said substrate.

3. The three dimensional cake sculpture product of claim 1 wherein said first portion is selected from the group consisting of cake icing, cookies, wafers, jelly beans, candy and combinations thereof positioned to create a segment of said distinguishable scene.

4. The three dimensional cake sculpture product of claim 1 wherein said distinguishable scene is a head presentation of a stylized person.

5. The three dimensional cake sculpture product of claim 4 wherein said head presentation of a stylized person includes a top as said first portion and facial features as said second portion.

5 6. The three dimensional cake sculpture product of claim 5 wherein said top is selected from the group of three dimensional tops, consisting of hair, ears, headwear and combinations thereof.

10 7. The three dimensional cake sculpture product of claim 1 wherein said distinguishable scene is at least a part of a stylized animal.

8. A three dimensional cake sculpture product, which comprises:

a.) an edible baked base having a bottom, substantially vertical walls, and a non-vertical top;

15 b.) a three dimensional sculpture presenting a distinguishable scene, said sculpture being of two portions, being a first portion and a second portion, said first portion being edible and being three dimensional and being located on said non-vertical top of said base, and said second portion being inedible, being two dimensional and being  
20 located on said substantially vertical walls.

9. The three dimensional cake sculpture product of claim 8 wherein said second portion is an inedible, peelable portion containing at least one printed segment of said distinguishable scene on said substrate.

5

10. The three dimensional cake sculpture product of claim 8 wherein said first portion is selected from the group consisting of cake icing, cookies, wafers, jelly beans, candy and combinations thereof positioned to create a segment of said distinguishable scene.

10

11. The three dimensional cake sculpture product of claim 8 wherein said distinguishable scene is a head presentation of a stylized person.

15

12. The three dimensional cake sculpture product of claim 11 wherein said head presentation of a stylized person includes a top as said first portion and facial features as said second portion.

20

13. The three dimensional cake sculpture product of claim 12 wherein said top is selected from the group of three dimensional tops, consisting of hair, ears, headwear and combinations thereof.

14. The three dimensional cake sculpture product of claim 8 wherein said distinguishable scene is at least a part of a stylized animal.

15. A method of making a three dimensional cake sculpture product,  
which comprises:

a.) making an edible baked base in a shape having a bottom,  
substantially vertical walls and a non-vertical top;

5 b.) creating a three dimensional sculpture of a distinguishable  
scene on said base by applying a first portion of said sculpture to said top  
of said base in the form of a three dimensional portion of said sculpture,  
and applying a second portion of said sculpture to said substantially  
vertical walls in a flat, smooth, two dimensional outer surface.

10 16. The method of claim 15 wherein said second portion is an edible  
portion having an edible substrate and at least one edible printed segment  
of said distinguishable scene on said substrate.

15 17. The method of claim 15 wherein said second portion is an inedible  
peelable portion containing at least one printed segment of said  
distinguishable scene.

20 18. The method of claim 15 wherein said first portion of said sculpture  
is created by applying at least one application of cake icing and at least a  
second application of a decoration selected from the group consisting of  
another cake icing, cookies, wafers, jelly beans, candy and combinations  
thereof.

19. The method of claim 15 wherein said edible baked base is made by  
baking in a baking pan having a predetermined shape to create said  
bottom said substantially vertical walls, and said non-vertical top.

5

20. The method of claim 15 wherein said distinguishable scene is  
selected from the group consisting of at least a portion of a stylized  
person, and at least a portion of a stylized animal.
